XML COLLABORATION

Alex Jitianu, George Bina

oXygen XML Editor

Syncro Soft

oXygen Users Meetup @ XML Prague 2018

You need to collaborate but…

your collaborators

- do not have access to your specific tools
- are not part of your specific workflow
- have no access to the repository

you want/need

- to approve/review changes before they reach the repository
- a less formal way to receive feedback

oXygen Content Fusion

Collaboration using a browser!

DITA, DocBook, XHTML, your own XML

As simple as possible!

Author (content owner)

1. Create

    review / collaboration task

2. Share

    a link with collaborators

3. Get changes

    back into the original files

Contributor / Reviewer
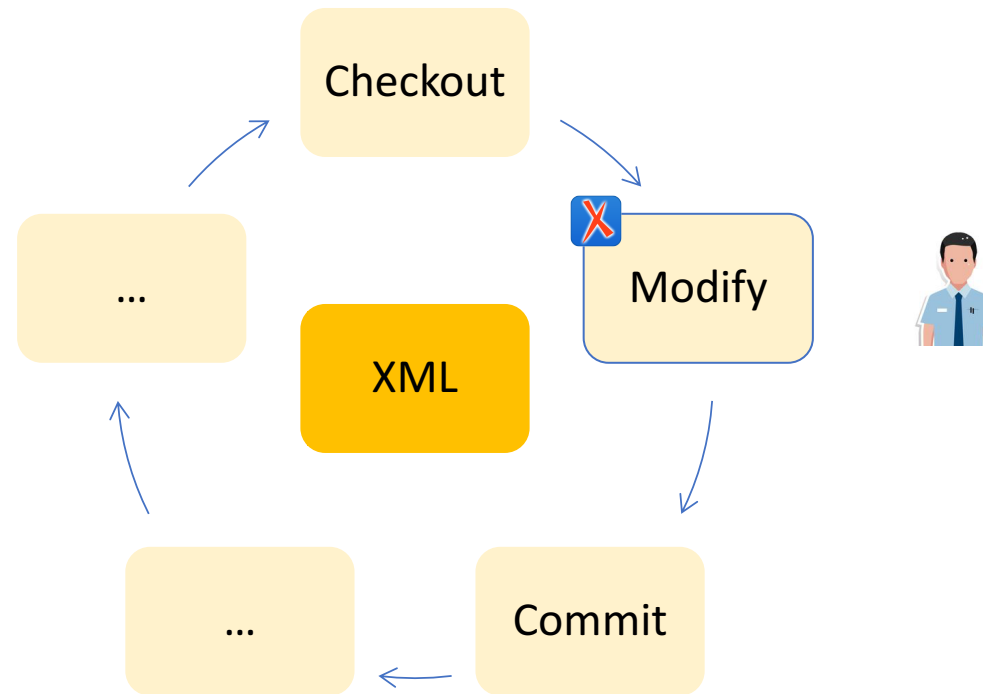

1. Follow link

    in any modern browser, on any device

2. Make changes

    using the oXygen web author

3. Mark as done

    optional, to let others know you finalized your contribution
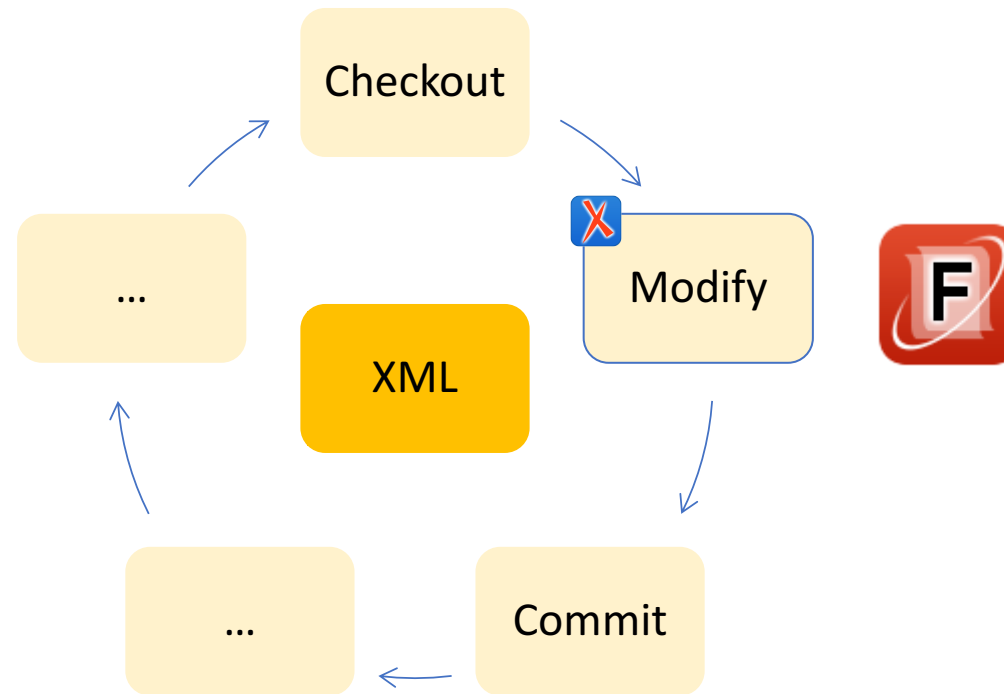

Tools

- oXygen XML Editor or Author
- Content Fusion connector plugin
- oXygen Content Fusion server
- Any modern web browser

Existing workflow

Integrating collaboration workflow

Integrating collaboration workflow

Let's see how it works!

Examples:

1. Create a simple review task with a few topics

2. Provide a place for contributors to enter content

3. Restrict editing to specific content

Review

Contribute

Restricted access

Supported functionality

- One or multiple XML files

- DITA Map to provide the editing context for DITA

- Multiple reviewers/contributors

- Automatic locking

- Change tracking

- Visual XML-aware 3-way merge with automatic merge support for pseudo-conflicts

- Task messages and email notifications
